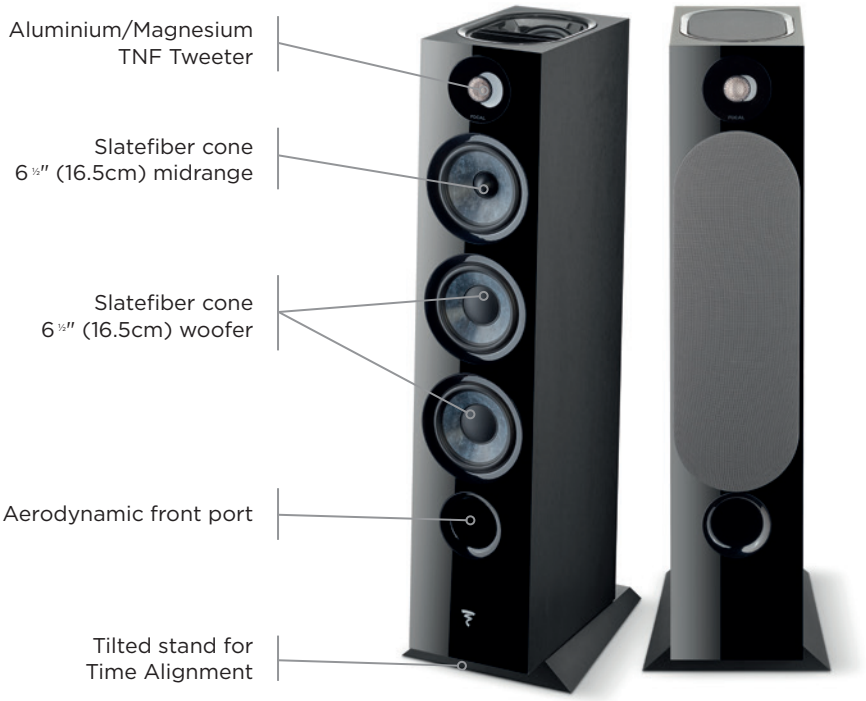
CHORA 826-D

Product data sheet

MADE IN FRANCE

Chora 826-D is the reference Home Cinema loudspeaker from the Chora line. Combining front channels and vertical dimension, it immerses you in a 3D Home Cinema experience! The full-range speaker driver located on the top of the loudspeaker uses sound wave reflection on the ceiling to reproduce the Dolby Atmos® effect. Its highly directional baffle also allows the spectator to accurately locate Dolby Atmos® effects, as though you had loudspeakers built into the ceiling!



Directional baffle for accurate and located Dolby Atmos® effects
