

BLUESOUND

FS230

ADJUSTABLE FLOOR STAND
FOR PULSE M & PULSE FLEX

The FS230 Adjustable Floor Stand supports both the PULSE M and PULSE FLEX speakers. The FS230 is ideal for positioning the speakers as a stereo pair, as a standalone speaker, or as rear channels in a surround setup. Attachments for both speaker models are included in the box. To set up, secure the PULSE M or PULSE FLEX's corresponding attachment to the floor stand before securing the speaker to its attachment. Then adjust the stand height to your desired listening elevation.

Precision engineered with heavy-duty steel, the FS230 is available in both black and white satin finishes to match your Bluesound ecosystem. It is the best way to add the PULSE M or PULSE FLEX to your existing audio setup if wall mounting is not an option. They are easy to assemble and adjust, and provide neat cable management. No drilling into walls, no mess - just precise alignment between you and your sound.
