

## PWM Sat

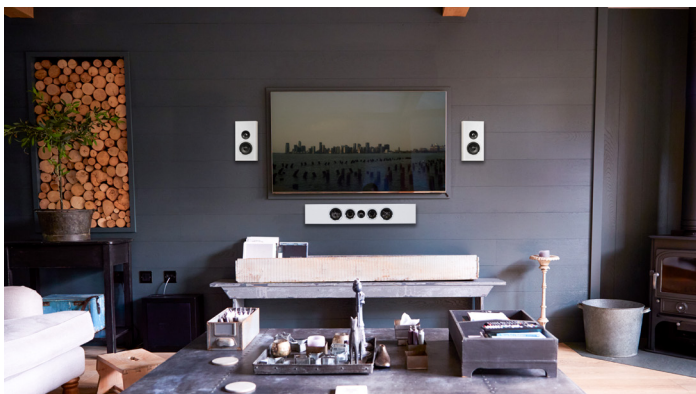

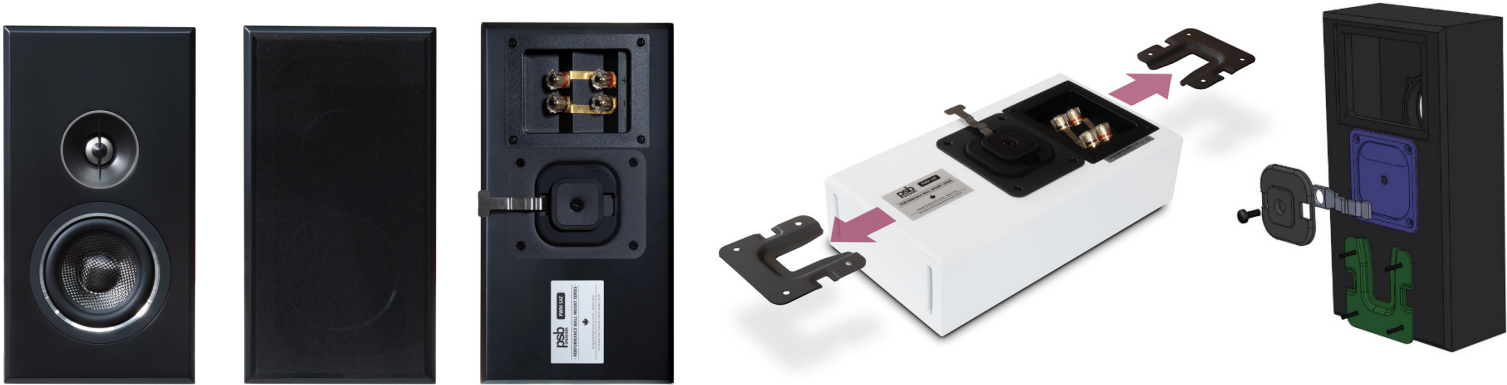

Today's installations demand discreet, space-saving solutions without sacrificing performance. The PSB PWM Sat On-Wall Speaker is purpose-built for integrators, system designers, and audio enthusiasts who need flexibility, value, and uncompromising sound.

As the most compact model in the acclaimed PWM Series, the PWM Sat extends PSB's proven Synchrony-based driver technology into a smaller form factor—delivering lifelike clarity, natural detail, and dynamic output across music, movies, and immersive surround formats.

Visually discreet yet sonically capable, the PWM Sat blends into any environment with a slim cabinet available in Satin Black or Satin White. Tonally matched across PSB's on-wall, in-room, and architectural speakers, it ensures seamless system design without compromise—offering integrators and clients alike a rare combination of performance, versatility, and value.

- Slim profile on-wall speaker
- Synchrony-based driver platform (1" titanium tweeter, 4" woven carbon fiber woofer)
- Flexible mounting: horizontal, vertical, or ceiling orientations
- Tonally matched with all PSB speaker families for seamless integration
- High-performance sound in a compact design
- Available in Satin Black or Satin White finishes

Designed with real-world integration in mind, the PWM Sat includes a robust two-piece locking bracket system that supports secure horizontal, vertical, and ceiling installation. This flexibility makes it equally at home as a main left/right channel, side or rear surround, height speaker in an immersive Atmos system, or as a compact 2-channel solution paired with a subwoofer.

PWM SAT		
Sensitivity		
Anechoic Chamber	83dB	
Listening Room	85dB	
Frequency response		
On Axis +/- 3db	90 - 23,000Hz	
LF Cutoff -10dB	62Hz	
Impedance		
Normal	8 Ohms	
Minimum	6 Ohms	
Acoustic Design		
Tweeter (Nominal)	1" (25mm) Titanium Dome with Ferrofluid	
Woofer (Nominal)	1 x 4" (100mm) Carbon Fibre Cone Rubber Surround Cast Basket	
Design Type	Bass Reflex	

PWM SAT
