

MA710

7.2-channel 8K AV Receiver

Product Overview

The JBL MA710 is an AV Receiver that delivers stunning realism with the latest 8K HDMI specifications and native 7-channel decoding of immersive audio from Dolby Atmos and DTS:X for the ultimate home cinema experience. Seamlessly integrate your smart TV or projector with 6 HDMI inputs and 1 output, plus eARC. It is designed with a passion for music and movies, bringing both to life with true high fidelity. The MA710 features seven channels of low noise Class D amplification for real world power to all channels. In addition to the onboard Moving Magnet phono input for connecting a turntable, additional music content can be accessed immediately with integrated streaming using Apple Airplay2, Google Chromecast, and Bluetooth AptX Adaptive. Audio sources can be played to a second Zone, making audio available in a secondary location. In addition to physical controls, the MA710 allows for IP control for third party control system integration.
